

UTILISAVE RECOVERS \$619,439 IN ESCO OVERCHARGES

CLIENT PROFILE

This UtiliSave client is a non-profit community hospital with locations throughout Brooklyn, New York. The hospital has nearly 300 beds and serves more than 11,000 inpatients each year. With UtiliSave’s expertise in the healthcare industry, we were able to secure multiple significant refunds for this client.

THE RESULTS

Upon careful review of the client’s accounts, UtiliSave auditors noticed that the client had switched from their previous ESCO to a new ESCO. This was done without the client’s permission and without considering regulatory requirements. UtiliSave effectively leveraged their knowledge of regulatory practices, utility tariffs, and strong negotiation skills to reach a settlement with the ESCO. The ESCO acknowledged the overcharges, which resulted in a **\$150,000** refund for the client.

Further, in two separate issues, UtiliSave successfully secured a **\$300,000** refund from the client’s utility company after identifying a calculation error on the client’s supply portion of their electric bill, and another **\$200,000** adjustment for this client relating to tax issues.

To date, UtiliSave has recovered **\$619,439** for this client.

 Year	 Water/Sewer	 Electric, Gas, Oil & Steam	 Total
Total to Date	\$24,602	\$594,837	\$619,439

WE CAN PROVE IT
