

UTILISAVE LEVERAGES TAX AND TARIFF EXPERTISE TO OUR CLIENT’S ADVANTAGE

CLIENT PROFILE

This UtiliSave client is a luxury condominium building located in the heart of Manhattan, New York. With a total of 60 stories, the first 26 floors of the building are for guests while the remaining 34 floors consist of apartments. This client engaged UtiliSave to audit their electric, gas, oil, and steam accounts.

THE RESULTS

In the client’s second year of engaging UtiliSave’s services, we secured a **\$123,000** adjustment by identifying a tax issue. Not only was UtiliSave able to obtain a refund, but resolving this issue will save the client tens of thousands of dollars each year going forward.

Then, just a year later, UtiliSave identified a billing rate issue which results in a **\$132,000** refund. During a hurricane, the utility company’s meters were damaged, which resulted in mistaken bills for many months. With in-depth knowledge of tariff law, UtiliSave recognized that this action taken by the utility was not allowed under the tariff, and successfully negotiated a refund.

To date, UtiliSave has secured nearly **\$300,000** for this client’s electric, gas, oil, and steam accounts.

WE CAN PROVE IT

Ask us for actual savings reports and case studies of success.
