

OVER \$2.7 MILLION SAVED
for United States Government Agency

ENGAGEMENT SNAPSHOT

UtiliSave was engaged by this United States Government Agency to audit 11 of its facilities and to recover savings in its water, sewer, electric, and gas utilities to identify any billing issues and savings opportunities. UtiliSave's findings did not disappoint.

DELIVERY ON ALL ACCOUNT

Billing Issues Uncovered

Through UtiliSave's auditing software BillAudit™, the Agency's historical utility data was subjected to a wide variety of tests. The billing issues uncovered ranged from double bills and erroneous consumption estimates to overstated demand and incorrect fiscal rates.

Exemptions and Allowances Revealed

UtiliSave's knowledge of various tariffs and government regulations identified a variety of exemptions for this federal agency that it was entitled to, but not receiving. Exemptions obtained resulted in annual savings of more than **\$200,000**. Billing allowances were also secured for the Agency's facilities, yielding over **\$320,000** in savings.

Meter and Rate Errors Exposed

Physical inspections to verify meter functionality and classification were conducted for all 11 facilities, resulting in the identification of various meter-related billing errors that yielded savings of over **\$900,000**. UtiliSave also performed multiple rate modeling exercises to compare the calculated rate for each account with other alternative rates offered by the utility company. This modeling exercise yielded over **\$30,000** in savings.

A Fight for Due Savings

UtiliSave brought an Article 78 proceeding against the water provider all the way to the State Supreme Court, which challenged the provider's insistence that its re-billing of one of the Agency's facilities covering a four year period was valid. UtiliSave successfully prevailed in this matter to prove their billing was invalid and secured credits totaling **\$525,000**.

As part of our commitment to our customers to be their advocate, UtiliSave absorbed the legal fees associated with this action which was successfully litigated for the Agency. In addition, UtiliSave also incurred the staffing and managerial costs involved with spearheading the documentation process and pursuing this claim. UtiliSave's compensation was limited to its success fee of the actual savings, further proving our belief in our capabilities to successfully provide significant billing refunds and energy savings for our clients.

Please note that while the total savings for this Government Agency totaled more than **\$2.7 million**, the highlighted successes above only account for a few of those refunds and savings.

- Exemptions obtained resulted in annual savings of more than **\$200,000**. Billing allowances were also secured for the agency's facilities, yielding over **\$320,000** in savings.
- Physical inspections to verify meter functionality and classification were conducted for all 11 facilities, resulting in the identification of various meter-related billing errors that yielded savings of over **\$900,000**.
- UtiliSave's modeling exercise yielded over **\$30,000** in savings.
- UtiliSave prevailed in the State Supreme Court and secured credits for the client totaling **\$525,000**.
