

JUST AS YOU WOULD NOT ALLOW
THE WOLF TO WATCH OVER THE HEN HOUSE,
WHY ALLOW AN ESCO TO REVIEW YOUR UTILITY BILLS?

ARE YOU ACHIEVING
MAXIMUM RESULTS?

Who has the most vested interest in uncovering errors in your ESCO bills?

ENGAGE A NEUTRAL PARTY

UtiliSave is an independent body with a proven track record, superior in-house software and unparalleled results.

There are many companies occupying the energy and sustainability space, and often as an after-thought, many will offer utility bill auditing – especially ESCOs. The problem is, however, that you never truly know whether or not they’ve dug deep enough.

Time and time again, UtiliSave is brought in after another auditor to find significant money left on the table. This is UtiliSave’s purpose and focus. Over 16,000 buildings audited while marching strong toward \$1 billion in recovered savings and refunds for clients attests to this specialization.

Engage an independent body to analyze your utility bills – a true utility management partner with unparalleled expertise and results in utility data optimization. **UtiliSave.**

STRAIGHT FROM THE HEN’S MOUTH

The difference between a utility bill audit that is a primary focus versus an add-on service is evident.

“I engaged UtiliSave and quickly learned two lessons.
First, the savings potential is significant and absolutely needs to be pursued.
Second, utility billing is complex and requires specific domain expertise.
UtiliSave delivered – and is continuing to deliver – solid bottom line savings.”
