ANNUAL SAVINGS & REFUND HISTORY

Actual savings delivered each year — this chart references a real UtiliSave client. All numbers represent verified refunds and billing credits.

★ Peak savings year. All figures are verified hard-dollar refunds and billing credits. Past performance does not guarantee future results, though UtiliSave achieves results in 94% of engagements.

TOTAL CLIENT SAVINGS TO DATE

\$3,979,290

Verified hard-dollar refunds & ongoing savings across 13 continuous years of service

13 YEARS OF CONTINUOUS RECOVERY

This Hospital engagement spans **13 consecutive years** of continuous forensic auditing, producing substantial refunds every year. UtiliSave's platform continuously monitored this client's utility billing across all accounts, surfacing new issues as they emerged.

Our analysis identified overlapping billing periods, erroneous demand charges, incorrect consumption calculations, and misapplied fiscal rates — each independently corrected. Year 7's \$744,065 recovery demonstrates how deep auditing surfaces large overcharges in long-established relationships.

Key Insight: Year 7 alone recovered \$744,065 — proof that accumulated billing errors can reach extraordinary levels and that ongoing vigilance delivers compounding returns.

PHYSICAL INSPECTION + SOFTWARE ANALYSIS

UtiliSave complements software auditing with **on-site physical inspections** of metering equipment. Meter inspections revealed configurations that did not match billing parameters — triggering substantial retroactive refunds across this client's portfolio.

UtiliSave's rate specialists also identified more favorable tariff structures available under applicable regulations. Transitioning to optimal rate structures generated significant ongoing annual savings.

Legal Support Included: When utilities resist legitimate claims, UtiliSave engages specialized utility counsel at no additional cost — ensuring every recoverable dollar is pursued to resolution.
