ANNUAL SAVINGS & REFUND HISTORY

Actual savings delivered each year — this chart references a real UtiliSave client. All numbers represent verified refunds and billing credits.

★ Peak savings year. All figures are verified hard-dollar refunds and billing credits. Past performance does not guarantee future results, though UtiliSave achieves results in 94% of engagements.

TOTAL CLIENT SAVINGS TO DATE

\$1,109,315

Verified hard-dollar refunds & ongoing savings across 12 continuous years of service

12 YEARS, SAVINGS EVERY YEAR

Over 12 consecutive years, UtiliSave delivered forensic utility auditing to this hospital client, producing **savings in every single year**. Year 5's peak of \$177,145 was driven by billing errors that had accumulated undetected across multiple billing cycles prior to engagement.

Our technical team analyzed each account at the surcharge and rate-component level, identifying exemptions and allowances specific to the healthcare industry — delivering savings across electric, gas, water, and sewer year over year.

Key Insight: UtiliSave maintains dedicated specialists in hospital utility tariffs — a sector with unique exemption opportunities that generalist auditors routinely overlook.

RECOVERY REBOUNDS AFTER THE DIP

Years 10 and 11 saw reduced savings — a natural pattern as prior overcharges are corrected. Year 12 rebounded strongly with **\$137,515 recovered**, demonstrating that UtiliSave's ongoing process continuously surfaces new opportunities as utilities update their rates and billing systems.

This pattern underscores a core UtiliSave principle: utility billing errors are a continuous phenomenon driven by rate changes, system updates, and regulatory shifts. Ongoing auditing is the only reliable protection.

Legal Support Included: When utilities resist legitimate claims, UtiliSave engages specialized utility counsel at no additional cost — ensuring every recoverable dollar is pursued to resolution.
